

Microbiology Society – Publishing Change of Authorship Form

Publication:

Article no.:

Article title:

This form must be completed and signed by ALL authors if the order of authors has changed, or if an author has been added or removed. By signing, authors agree to the authorship of this paper, and to the order of the names, as shown below.

In the case of a co-author being unavailable to sign the same form, we accept an email from the co-author sent from their institutional email address affirming their consent, or an electronically signed copy of the CoA.

An author's name may only be removed at his/her own request; a letter signed by that author confirming permission to remove their name should accompany this form.

Please fill in the details below; complete the first table, indicating the former authorship, and the second table, indicating the final authorship. Authors can sign different versions of the form, but all author names must be included on all versions of the form. If there are more than 10 authors, their names and signatures should be added on a separate page.
